

# AutonoMe

Combining educational technology with one to one support to improve outcomes for Vulnerable People in Social Care settings

*Supported by...*

**William Britton**

*Founder, Chief Executive*

*will@autono.me.uk*

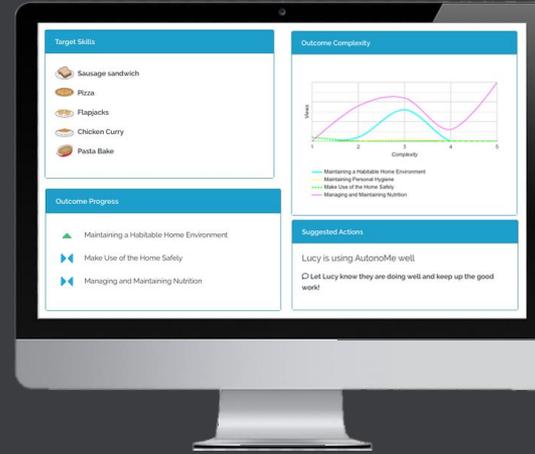

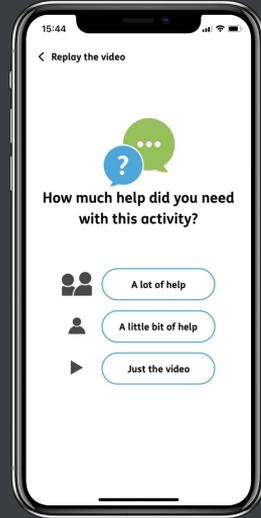

# Company Purpose

Embed the principles of education into social care settings using enabling technology to support vulnerable people to be independent

# App

Personalised instructional videos,  
notifications and reminders to support  
tasks in home and the workplace

# Dashboard

On demand data to evaluate impact  
and progress towards independence,  
providing greater insight into abilities  
and support needs

## **AutonoMe Local Education Officer - remote and face to face support**

Our frontline staff ensure service users gain skills without increasing their vulnerability whilst social distancing is in place. Work with service users and key partners to personalise their content and reminders to their needs.

### **AutonoMe Local Education Officer**

Supports service users, providers and other partners remotely

# Performance

*We support over 300 vulnerable adults and children across various Local Authorities*

**90%**

Working towards their  
AutoNoMe outcomes

**80%**

Made progress towards  
their outcomes

**39%**

Exceeded their target  
level of independence

**190%**

Increase in attainment  
with LEO support

**95%**

User satisfaction

**#3.3**

Average number of front  
line staff trained per user  
per annum

Data from April 2019 - March 2020

## How can we help?

- ✓ Providing elements of support to vulnerable service users through our full service
- ✓ Helping people with Learning Disabilities into the workplace
- ✓ Offering a free slimmed-down version of our App throughout Covid19
- ✓ Get in touch to discuss how we can support your offer to vulnerable people
