 - Networking with colleagues
 - Please spend time with exhibitors
 - Meet the speakers
 - Regional collaboration
 - Question participants
 - Be present!

City of
BRADFORD
METROPOLITAN DISTRICT COUNCIL

An opportunity

- Adult Care Reform
- Accelerate adoption of tech
- What works??
- Early help and prevention
- Efficient care models
- Digital social care records

 **Using the full potential of technology to support people's lives and aspirations.**

This means putting practical digital tools in the homes and the hands of those who draw on care and support and their carers; equipping the social care workforce with the digital tools, knowledge and confidence they need to deliver outstanding quality care; and creating the digital and data infrastructure needed to drive future transformation in care delivery.

The inevitable...

- People's expectations – tech and 24/7
- Co-production / Model T Ford analogy
- Personalised services
- People's changing needs
- Wider wellbeing
- Workforce capacity

SUMMARY OF THE COMMISSION'S RECOMMENDATIONS:

1. Technology enabled services need to be proactive and co-produced with people, their families and carers.

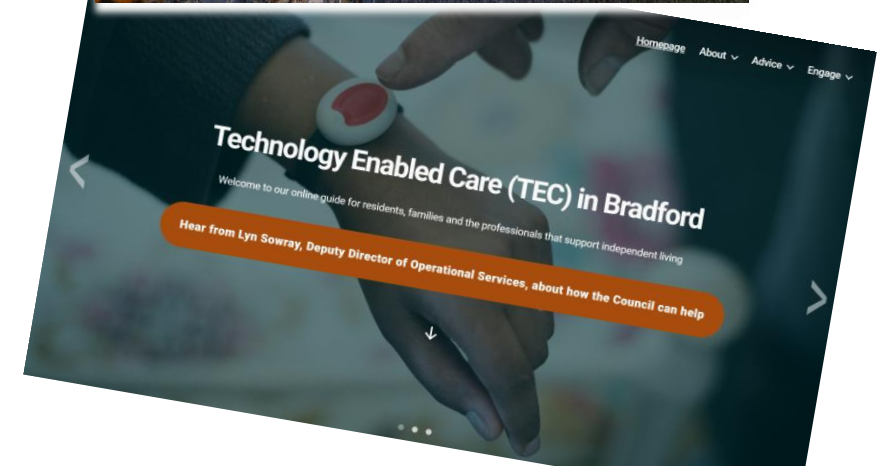

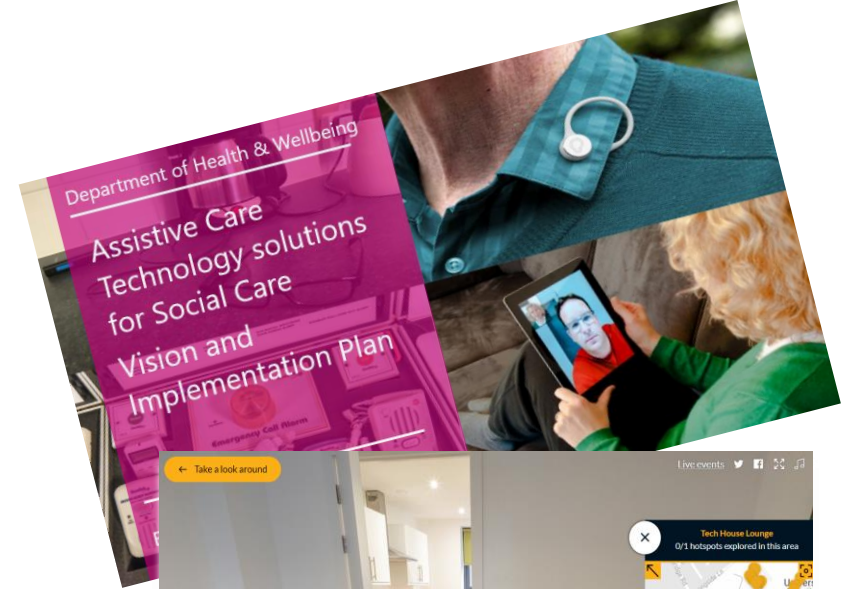

2. Digital infrastructure, skills and approaches in adult social care must improve so individuals and the care workforce can maximise digital opportunities.

3. People must own and control their health and social care data and enable access by the right people, at the right time.

4. More collaboration is needed in care and support across all levels, so services and policies are joined-up and contribute to the wider wellbeing of people, their families and carers.

Mobilisation

- Motivation
 - Real-time information
 - Tec House with UoB
 - Sharing stories
- Responsiveness
 - Safe and sound services
 - Prevention of admissions
- Shared Care Records
- Big data

Great Expectations

- 2021 TSA / ADASS Commission
 - Providers embracing technology
 - People's expectations of tech
 - Ambitions to join-up systems
 - Responsivity and personalisation
- Intercepting the commissioning cycle / silos
- Learning what's available
