Background to TAPPI

Using past experience to tackle an important topic

#TAPPI

TAPPI Phase 1 – The Inquiry

- We formed a **TAPPI Panel** chaired by Prof Roy Sandbach - key industry leaders and policy makers incl: TSA, DLUHC, LGA, ADASS and the Queen of Sweden's charity: Silviahemmet
- **TAPPI Inquiry Jan-Apr 2021** – 4 hearings, 4 regional sector regional events, call for info
- Linked with **3 other Commissions**
 - *Technology enabled care and support* (TSA/ADASS White Paper)
 - *Future of housing and care* (Social Care Institute for Excellence)
 - *Smart Homes and Independent Living Commission* (APPG on AT, Policy Connect)

#TAPPI

TAPPI Phase 1 – Key actions undertaken

- Identified examples of innovation and true integration of digitally enabled technology in housing and care settings, in the UK or internationally
- Explored the success factors in these examples, and capture lessons learnt
- Gained an understanding of the biggest barriers preventing commissioners, providers and others from moving towards true digital transformation
- Tested a series of domains (**the 10 TAPPI principles**) that will form the new TAPPI Framework being developed in Phase 2

The 10 TAPPI Principles

The TAPPI Panel Members have produced a set of overarching TAPPI principles that they believe should form a future TAPPI Framework captured in this infographic.

#TAPPI

TAPPI Phase 2

From Principles to Implementation

OBJECTIVES:

- Test **10 TAPPI principles** in locality 'testbeds'
- Gather the evidence of what is possible
- Challenge what is perceived to be impossible
- Co-produce a 'TAPPI Framework'

Personalisation in Action

Co-production

Technology enabled services need to be proactive and co-produced with people, their families and carers.

Workforce, vision and leadership

Digital infrastructure, skills and approaches in social care must improve so individuals and the care workforce can maximise digital opportunities.

Standards

We should work with technology providers and other adult social care stakeholders to drive the adoption of quality standards.

Evidence evaluation and benefits realisation

Wellbeing and cost benefits continuously collated

Creation of the blueprint

What good looks like

Hands on Support in the community

Delivery of a Personalised Care Innovation Programme

Tappi Framework
