Quality · Safety · Innovation

TEC Quality's Quality Standards Framework turns compliance into credibility, raising the bar for safety, trust, and performance across the entire TEC ecosystem

Transforming Models of Care - Why Now?

1

Growing Demand

More people living with multiple long-term conditions

2

Workforce Pressures

Recruitment and retention remain major challenges

3

Financial Pressures

Organisations are expected to deliver more with limited funding

4

Rising Public Expectations

People expect personalised, connected services

5

Innovative Solutions

TEC is now far more than reactive alarms and telecare

TEC is Key to the Government Agenda

1. Moving care from hospitals to the community
2. Shifting services from analogue to digital
3. Moving away from treating sickness to prevention

Today's Agenda

1

Session 1

**Why change
is happening**

2

Session 2

**What good
looks like**

3

Session 2

**How we make
it happen**

#EverydayTEC

Arms services and suppliers with creative assets and consistent messaging that show the benefits of TEC to people, families and carers.
